---

*Over 5 years of experience as a Software Engineer. I worked as a Senior Full Stack Developer at GA Tech Solutions, where I developed world-class applications, such as Control Suite, using cutting-edge technology to provide services to franchises like McDonald's.*

## PROFESSIONAL EXPERIENCE

---

### GA Tech Solutions

Senior Full Stack Developer

Quintana Roo, México

November 2022 – May 2025

- I worked on the development of Control Suite from the ground up; I presented the frontend architecture and developed microservices to manage report generation, scaling the system from 0 to over 100 food franchises.
- I integrated a chat system using Google's Firebase technology to answer frequently asked questions and automate user tasks.
- I implemented CI/CD practices that have saved over 100 hours to date.
- In my spare time, I developed a project management system that helps monitor the company's more than 20 applications and facilitates error analysis, featuring a log manager, version control system, and rollback functionality.
- I was part of the RBI team, contributing to the resolution of over 200 bugs.
- I developed an application for Ultramar that simplified passenger boarding and reduced waiting lines.
- At GA, I have worked with technologies such as Next.js, React, SQL, Django, .NET, PostgreSQL, and many more.

### Freelancer

Full Stack Developer

Quintana Roo, México

August 2019

- I have worked on the development of multiple applications, both local and global.
- I worked on the development of [hadasluxury](#), significantly improving their existing website by reducing loading times by up to 60%, enabling easier analysis of their properties and sales. I also improved their SEO, making it easier for more users to find an ideal place to rent in Yucatán.
- I have helped companies optimize their web resources and improve their SEO, successfully building a stronger brand identity that translated into increased sales.

## EDUCATION

---

### Platzi

Software Development

Over 100 [courses](#) completed, ranging from software fundamentals to AI and blockchain.

Quintana Roo, México

May 2019

## Additional Skills

---

- Native Spanish speaker and fluent in English.
- I really enjoy reading popular science, biographies, business, hard sciences, and personal development books.
